Cavotec UK marks opening of new premises

[Cavotec UK](#) recently completed a successful move to new and larger premises in Stockton-on-Tees, a site ideally suited to the company's future growth and expansion. Working closely with the landlord, Cavotec UK has also overseen the full redevelopment of the site.

The premises were officially opened by local member of parliament and Government minister, James Wharton, on April 1, during a ceremony attended by local dignitaries, officials and media.

The new facility provides a unique manufacturing environment for [Cavotec](#)

[Dabico's](#) advanced aircraft [fuelling equipment systems](#), which are marketed worldwide. In February, Cavotec UK reported one of its strongest months to date in terms of manufacturing output and invoicing.

Cavotec is a leading engineering company with 50 years of heritage in innovation, designing and delivering advanced connection and electrification solutions that drive the decarbonisation of ports and industrial applications. With five decades of experience, our systems ensure safe, efficient, and sustainable operations for a diverse range of customers and applications worldwide.
