Cavotec to exhibit innovative technologies at OTC Houston

We are gearing up for another offshore extravaganza at one of the world's leading trade shows for the energy industry, [OTC \(Offshore Technology Conference\) HOUSTON](#), which gets underway on Monday.

During the show, we will be focusing on several product areas including explosion proof (Ex) (and non-Ex) [radio remote controls](#) (RRC), [Alternative Maritime Power](#), [cable chains](#), [power connectors](#), [slip rings](#) and [motorised cable reels](#).

Billed as highlighting "the development of technologies that serve the

offshore industry in the fields of drilling, exploration, production, and environmental protection", the event attracted almost 90,000 visitors in 2012, and some 2,500 exhibiting companies.

As in previous years, we are in the Norwegian Pavilion, and you will find us at booth 5235. [Click here for a full exhibition booth map.](#)

Cavotec is a leading engineering company with 50 years of heritage in innovation, designing and delivering advanced connection and electrification solutions that drive the decarbonisation of ports and industrial applications. With five decades of experience, our systems ensure safe, efficient, and sustainable operations for a diverse range of customers and applications worldwide.
