Cavotec at inter airport Europe 2017

Join us at [inter airport Europe 2017](#) this week, where we're demonstrating how our [advanced Ground Support Equipment](#) - including 400Hz, PCA, wet services, fuel hydrant and tank farm systems – support airports and MRO hangars worldwide to make aircraft servicing safer, cleaner, and more efficient.

Cavotec representatives will be welcoming delegates to our stand, 1220 in hall A5, throughout the exhibition, which starts today and ends on October the 13th, and is being held at the Munich Trade Fair Centre.

We're also hosting a drinks reception at our stand on Wednesday the 11th at

5:30pm, during which we'll be showcasing our latest innovations that improve aircraft turnaround times, cut emissions and enhance safety. If you're at inter airport Europe, you'd be welcome to join us.

Held bi-annually, and billed as "the world's leading airport exhibition", *inter airport* Europe draws leading experts and suppliers from across the global airport sector, encompassing "all areas of airport-related technology and services."

Cavotec is a leading cleantech company that designs and delivers connection and electrification solutions to enable the decarbonization of ports and industrial applications.
