## **Cavotec Australia review and thanks following recent AIMEX show #mining**

The enquiry level throughout the four-day show was encouraging, with several enquiries for core Cavotec products, and our local agency lines.

Interest was especially strong in motorised cable reels, spring-driven cable reels, connectors, radio remote controls, Brevetti cable chains, Gantrex rail clips and pads, Vahle conductor bars, Brieda seats and consoles, and Gessmann joysticks.

Many thanks to the staff we had on the stand including, Sures Sinnadurai, Jeff

Humphreys, Steve Conrades, Mark Payne, and particularly the guys who travelled so far: Jan Buttle-Ulvin (Cavotec Micro-control Singapore) and Bruno Pierobon from Gantrex Belgium.

Also, a special thanks to Tony Iseppi who arranged the exhibition and Julia Weinhart for organising the banners for our stand.

---

Cavotec is a leading cleantech company that designs and delivers connection and electrification solutions to enable the decarbonization of ports and industrial applications.
