## Cavotec launches new group website

**We're delighted to announce that the new Cavotec website is now live at [cavotec.com](http://cavotec.com).**

The new site is another step in our transformation from an engineering and manufacturing company to a global systems and solutions provider – a leading partner, trusted for our worldwide operational and innovation excellence.

We chose to launch the new site on the 21<sup>st</sup> of June – the solstice – so you can shift to the new season while discovering how to connect, electrify and automate your business. That's what we call "Inspired Engineering".

Wherever you are, connect to the new site, and surf on in. Moor it firmly in your browser. And enjoy!

---

Cavotec is a leading engineering company with 50 years of heritage in innovation, designing and delivering advanced connection and electrification solutions that drive the decarbonisation of ports and industrial applications. With five decades of experience, our systems ensure safe, efficient, and sustainable operations for a diverse range of customers and applications worldwide.
