Cavotec to focus on system automation, electrification at TOC Europe

Cavotec will be at [TOC Europe](#) to meet customers who want to know more about our crane electrification, automated mooring, shore power, and connection and charging systems.

Our innovative technologies for ports help customers worldwide to drive down operating costs, improve safety and reduce environmental impact.

Book a meeting with one of our staff members [here](#).

The three-day event – described as “the global meeting place for ports, terminals, shipping lines, 3PLs and shippers” – gets underway on 16 June and will be held in Ahoy, near Rotterdam, in The Netherlands. Organisers are preparing to welcome more than 3,800 attendees from more than 60 countries.

Cavotec is a leading cleantech company that designs and delivers connection and electrification solutions to enable the decarbonization of ports and industrial applications.
