Cavotec365: an image for every day of 2013

Around the world and around the clock, Cavotec technologies are ensuring a broad range of industries operate safely, efficiently and sustainably.

To demonstrate how and where our systems do this, we plan to post an image of Cavotec equipment on [our Twitter feed](#) every day of 2013 in a campaign we're calling **Cavotec365**.

We hope that Cavotec365 will trigger the interest of anyone with a passion for engineering, innovative technologies, the Cavotec brand, or even photography.

We will start with our own images, but we will also be asking Cavotec colleagues, friends and customers to send in their own shots of Cavotec applications.

Look out for the #Cavotec365 hashtag from the 1st of January.

UPDATE April 25: you can see the latest Cavotec365 images on [our Twitter media grid](#).

We want to contribute to a future world that is cleaner, safer and more efficient by providing innovative connection solutions for ships, aircraft and mobile equipment today.
