## Cavotec Wins Vessel Charging Innovation of the Year

Cavotec Wins '***Vessel Charging Innovation of the Year***' at Electric & Hybrid Marine Awards 2025

This year's Electric & Hybrid Marine Awards, presented at RAI Amsterdam during Electric & Hybrid Marine Expo Europe, featured a wide array of categories to recognize the scope of innovation and achievement across the maritime sector over the past 12 months. Comprising nine categories, the Electric & Hybrid Marine Awards were a celebration of recent advances in marine propulsion technology and progress toward a greener and more

sustainable industry.

In the Vessel Charging Innovation of the Year category, Cavotec was recognized for its **MCS Manual Dispenser** – *the first MCS Level 3 solution specifically designed with a heavy-duty-rated connector.*

Judges highlighted the technology's ability to fit seamlessly into port infrastructure and deliver power safely and efficiently.

*"We are proud to receive this award for our MCS Manual Dispenser," said Cavotec CEO David Pagels. "This recognition highlights Cavotec's commitment to delivering innovative, global solutions that support the maritime industry's transition to more sustainable operations. Our team continues to push the boundaries of what's possible in vessel electrification to help our customers reduce emissions and improve efficiency."*

---

Cavotec is a leading engineering company with 50 years of heritage in innovation, designing and delivering advanced connection and electrification solutions that drive the decarbonisation of ports and industrial applications. With five decades of experience, our systems ensure safe, efficient, and sustainable operations for a diverse range of customers and applications worldwide.
