Cavotec's Megawatt Charging System Manual Dispenser featured in International Mining

Cavotec's **Megawatt Charging System (MCS) Manual Dispenser** is featured in the May 2025 issue of International Mining, with insights from **Jörn Bullert**, VP Product Management Charging Solutions.

In the interview, Bullert discusses how high-capacity charging – up to 4.5 MW – is enabling rapid turnaround for battery-electric haul trucks and support vehicles, helping mining operations reduce downtime and accelerate electrification.

*“It is the first manual dispenser for up to 4.5 MW of charging power with a cable management system and intuitive grip,” Bullert told *International Mining*.*

The article highlights how Cavotec’s solution combines power, safety, and durability to meet the needs of demanding industrial environments.
