Cavotec inaugurates world-class manufacturing facility in Italy

Global engineering group Cavotec has officially opened its new world-class production facility in Milan, which is set to ensure the Group's manufacturing and supply chain excellence in the years ahead.

Some 150 guests attended yesterday's opening ceremony, among them key customers, suppliers, partners, local officials and dignitaries, and members of the media. Cavotec board members and management team were also present.

Cavotec CEO, Mikael Norin, opened the ceremony. Following a series of

keynote addresses, guests were taken on a guided tour of the facility. The world-class production plant features the latest in sustainable building materials and technologies, including the capacity to generate 230kW of solar power. It is also equipped with geothermal heating, has 2,730sqm of office space, and 12,264sqm devoted to engineering and production.

“Not only are we opening a state-of-the-art production facility, we’re opening a new chapter in the Cavotec story. These premises will ensure that we build the manufacturing and supply chain excellence that will see Cavotec realise its full potential,” Norin said.

Cavotec Italy is one of the Group’s seven Centres of Excellence worldwide. As part of the Ports & Maritime Division, Cavotec Italy focuses primarily on the development and manufacture of shore power solutions, MoorMaster™ automated mooring as well as crane electrification solutions such as cable reels.

We want to contribute to a future world that is cleaner, safer and more efficient by providing innovative connection solutions for ships, aircraft and mobile equipment today.
