## Cavotec Unveils Next Generation Radio Remote Controls at Bauma Europe 2025

Cavotec proudly announces the launch of its next generation radio remote controls. Designed for unmatched flexibility, reliability, and ergonomic comfort, these new systems are set to redefine operator control in demanding industrial environments. The official unveiling will take place at **Cavotec's booth B4.314 at Bauma Europe 2025.**

Engineered for optimal performance across various applications, Cavotec's new radio remote controls offer robust safety features and customizable options to meet the specific needs of customers. Key features include:

- **Unmatched Durability:** Shock-absorbing guards protect sensitive electronics and switches, preventing accidental operation and ensuring longevity.
- **Tailored for You:** Fully customizable to meet application-specific requirements, with options for branding and bespoke configurations.
- **Ergonomic Comfort:** Lightweight design paired with well-engineered carrying strap options for enhanced comfort during extended use.
- **Flexible & Customizable:** Adjustable to operational needs with brand-matching customization.
- **Smart Control:** Optional Codesys display, Cavotec programmed display, and/or LED feedback for real-time system monitoring.
- **Safe & Reliable:** PLe/SIL3-rated stop functionality, PLC-rated functions, and an IP66 rating for superior protection.
- **All-Weather Ready:** Engineered for extreme environments, it operates in temperatures from -30°C to +60°C and carries an IP66 rating for maximum protection.

*“With these new radio remote controls, we’re giving operators greater control and comfort in their daily tasks while maintaining the highest safety standards,” said **Norman Palmer**, Product Manager for Radio Remote Controls at Cavotec. “We’re excited to introduce them at Bauma Europe and set a new benchmark for industrial radio remote controls”.*

Visit Cavotec at booth B4.314 during Bauma Europe 2025 to experience the latest advancements in remote control technology and explore Cavotec's comprehensive portfolio of electrification and automation solutions.
